CUSTOMER RELATIONSHIP

The online customer service system allows you to ask questions more quickly and get answers in a short time. In addition, in order to better understand the needs of our customers, we also actively participate in major commercial exhibitions and establish trust relationships with our partners through frequent exchanges.

MANUFACTURING EXPERIENCE

Chung Jen has over 30 years of experience in manufacturing zinc alloy products and is dedicated to developing new gifts and premiums with a professional R&D team. In 2013, we extended the production line for plastic products, which increased product variety and got closer to meeting customer needs.

AUTOMATED PRODUCTION

By using the Gz3 zinc alloy, which is 95.67 percent pure zinc, our patent products are stronger and more impact-resistant than competing models. The material also conforms to REACH regulations in Europe, facilitating RoHS and CE marks being awarded to our products. Developing new products, upgrading technology, lowering costs, speeding up capacity, promoting excellent-quality products, and creating additional value are our business commitments.

APPLICATIONS OF DIGITAL PRINTING ON 3D OBJECTS

NEW techniques to make your product unique

Our team is researching the effects of UV digital printing on metal products and developing a new coloring technique called “digital printing on 3D objects." Compared with general digital printing, the technique “digital printing on 3D objects” can show more layers and more changes in color, making the product more eye-catching!
